Schwab Trust Bank charges an annual trustee fee equal to the "expense ratio" on all assets within the Fund, which includes fees charged on the underlying investments. Fees and expenses are only one of several factors participants and beneficiaries should consider when making investment decisions. The cumulative effect of fees and expenses can substantially reduce the growth of an investment. Please visit the Department of Labor's web site for an example showing the long-term effect of fees and expenses at <http://www.dol.gov/sites/default/files/ebsa/about-ebsa/our-activities/resource-center/publications/a-look-at-401k-plan-fees.pdf>.

About the Sub-Advisors

Charles Schwab Trust Bank uses an open-architecture sub-advised approach to investing. Fund investments are selected based on advice received from or products offered by industry recognized investment management firms ("sub-advisors"). The Fund may invest in other Schwab Trust Bank Collective Trust Funds to gain exposure to the underlying sub-advised strategies. See the "Disclosures" at the end of this document.

Objective

The Fund seeks long-term capital appreciation.

Fund Strategy

To pursue its investment objective, the Fund invests primarily in one or more sub-advised strategies consisting primarily of equity securities issued by large U.S. Companies. The sub-advised strategy(ies) look(s) for well established companies that exhibit or have the potential for growth in stock price. The Russell 1000® Growth Index is the index against which the Fund will be compared; however the Fund will not attempt to replicate the index. Charles Schwab Trust Bank may use another index as the basis for making investments or for performance measurement and analyses. The underlying sub-advisor(s) may use another domestic large cap index as the basis for making investment recommendations.
